

LA Governor's Office of Homeland Security and Emergency Preparedness
MGT 452 – Physical & Cybersecurity for Critical Infrastructure

Lake Charles, La
September 12, 2018

Course: MGT 452 – Physical & Cybersecurity for Critical Infrastructure

The national and economic security of the United States depends on the reliable functioning of critical infrastructure. This course encourages collaboration efforts among individuals and organizations responsible for both physical and cybersecurity toward development of integrated risk management strategies that lead to enhanced capabilities necessary for the protection of our Nation's critical infrastructure.

Participants will identify physical and cybersecurity concerns impacting overall infrastructure security posture, examine integrated physical and cybersecurity incidents and the evolving risks and impacts they pose to critical infrastructure, and explore resources that can be applied to improve security within an organization, business, or government entity.

Audience: Agricultural Safety, Emergency Management, EMS/Fire, Healthcare, Hazardous Materials, Information Technology, Law Enforcement, Public Safety, Public Communications, Public Works, Search and Rescue, Transportation Security, Governmental and Community Personnel.

Prerequisites: No prerequisites for this course.
