Louisiana Disaster Survivors: Social Media Can Help With Your Recovery

Louisiana and federal officials encourage you to connect with them on social media to help you and your community recover from the recent severe storms and floods.

Use social media to communicate directly with officials and get answers to disaster-related questions, learn the latest response and recovery news, and share information like pictures and videos.

There are several ways to interact with Louisiana and federal emergency management officials through social media:

Governor's Office of Homeland Security and Emergency Preparedness

- Like "GOHSEP" on Facebook.
- Follow "@GOHSEP" on Twitter

Louisiana Gov. John Bel Edwards

- Like "Louisianagov" on Facebook.
- Follow "Louisiana_gov" on Instagram.
- Follow "@Louisianagov" on Twitter.

FEMA

- Like "FEMA" on Facebook.
- Follow "Federal Emergency Management Agency" on Instagram.
- Follow "@FEMAregion6" on Twitter.

Download and use the FEMA mobile app for disaster resources, weather alerts and safety tips. You can also check the status of your FEMA help application. The app provides a customizable checklist of emergency supplies, maps of open shelters and weather alerts from the National Weather Service for up to five locations across the nation. The latest feature of the app allows you to send notifications to your device to remind you to take important steps to prepare your home and family for disasters. Go to Ready.gov for more details.
