

Basic Academy

Course Requirements:

Basic Academy consist of 5 classroom courses. Together these courses are comprised of 15 days/120 hours of learning. Attendance is mandatory for all courses to complete the Basic Academy. It is recommended that L0101 be taken first; however, this is not required.

Required Prerequisites:

There are 12 required prerequisites that must be completed prior to submitting an application of Basic Academy courses. 11 of the required prerequisites are needed for all courses. IS29 must be completed as the final course prior to submitting an application for E0105. (IS-100, IS-120, IS-200, IS-230, IS-235, IS-240, IS-241, IS-242, IS-244, IS-700, IS- 800, IS-29.)

E/L/K-0101

Foundations of Emergency Management

TFEMA recognizes the need to tie training programs to an established set of emergency management competencies and to a Career Development Program through a progressive training and education system that includes the entry-level Academy, called the National Emergency Management Basic Academy. Training objectives for this course are based on the newly established emergency manager competencies that the National Emergency Management Association; the International Association of Emergency Managers; and state, local, territorial, and tribal emergency management professionals have established in coordination with EMI. The following topics in emergency management are covered in this course: history; legal issues; intergovernmental and interagency context; influencing and organizing; social vulnerability issues; managing stress; collaboration, preparedness, and team-building; mitigation, response, prevention, and protection; ethical decision-making; recovery; technology; administration; and the future.
Total- 40.0 hours

E/L/K-0103

Planning: Emergency Operations

This course is designed to give basic concepts and planning steps to those new to the field of emergency management so that they may apply planning discipline and skills to challenges in their jobs. The course content includes Emergency Management Planning doctrine and steps to take to accomplish writing plans and using them to deal with special events, which are common challenges for all jurisdictions. The content also derives from the Comprehensive Preparedness Guide 101, Developing and Maintaining State, Territorial, Tribal and Local Government Emergency Plans, and its six-step planning process and inclusive whole community philosophy. Likewise, doctrine from the Comprehensive Preparedness Guide 201, Threat and Hazard Identification and Risk Assessment (THIRA), is included in the course. Special event planning is then explained in the course, and table group activities to analyze plans for special events are conducted.
Total- 16.0 hours

E/L/K-0102

Science of Disaster

This course provides the participants with an overview of scientific principles and concepts that shape our increasingly dangerous world. The contents of the course include the following:

- Introduction to Science of Disaster provides a definition and benefits of science.
- Earth Science describes how the Earth's design sets the stage for the world's natural hazards including earthquakes, volcanic eruptions, tsunamis, and landslides/sinkholes.
- Climatology describes the scientific basis of common atmospheric hazards including convective storms, tropical cyclones, and other hazardous weather.
- Chemical and biological basics identifies the scientific basis of chemical and biological threats.
- Explosive, radiological, and nuclear fundamentals identifies the scientific basis of those threats.

Total- 24.0 hours

E/L/K-0105

Public Information Basics

This course focuses on the recognition, prevention, and deterrence of terrorist activity and criminal high-consequence incidents for law enforcement and other public safety professionals (such as investigators, parole or probation officers, public health investigators, EMS, fire service, and others in public safety-related positions).
Total- 24.0 hours

E/L/K-0146

Homeland Security Exercise and Evaluation Program (HSEEP) Training Course

This course focuses on the recognition, prevention, and deterrence of terrorist activity and criminal high-consequence incidents for law enforcement and other public safety professionals (such as investigators, parole or probation officers, public health investigators, EMS, fire service, and others in public safety-related positions).
Total- 16.0 hours
