

Benefit Cost Analysis

This course will focus on strengthen parish-level understanding of FEMA Benefit-Cost Analysis requirements, improve the quality of BCA submissions, reduce RFIs, and support more timely and defensible project approvals across the mitigation lifecycle. Key concepts will include BCA fundamentals and eligibility requirements, common areas of improvement, supporting data sources, and loss avoidance concepts.

What participants will learn:

- BCA fundamentals and eligibility requirements
- Common technical deficiencies observed during review
- How H&H data supports BCA development
- Loss avoidance concepts and validation
- FEMA Region 6 expectations and technical review considerations
