

**Governor's Office of Homeland Security
and Emergency Preparedness
State of Louisiana**

JOHN BEL EDWARDS
GOVERNOR

CASEY TINGLE
DIRECTOR

POLICY NAME: SECURE STATEWIDE LAW ENFORCEMENT INTEROPERABILITY TALKGROUPS

POLICY NUMBER: 010

EFFECTIVE DATE: September 28, 2022

The talkgroups listed in this policy are to be programmed into law enforcement authorized radios/consoles only with encryption as specified by DPS- Radio Maintenance/Mobility and Communication Services (MCS). All agencies that engage in law enforcement activities that have LWIN radios should coordinate with DPS-Radio Maintenance/MCS for the encryption information and program their radios for these talkgroups as soon as feasible.

The encryption information is law enforcement sensitive and should be revealed only to agencies with law enforcement radios and their authorized programmers on a need-to-know basis.

The radios are to be programmed strapped secure so that encryption is always automatically enabled on these talkgroups. Clear voice or encryption other than that specified is not allowed on these talkgroups.

Upon adoption of this policy, DPS-Radio Maintenance/MCS will send a copy of this policy to all law enforcement agencies on LWIN and to known programmers of LWIN radios. Radio/Console

Talkgroup Labeling Shall Be As Follows:

For Displays Limited To	For Displays	For Displays	For Displays
13 or More Characters/Spaces	Limited To 12	Limited To 11	Limited To 8
