

Hazard Mitigation and Assistance Grants

This training will provide step-by-step instruction on navigating FEMA's HMA grant program. This course covers the fundamentals of hazard mitigation and eligible activities, including application development, benefit-cost analysis, and post-award compliance. Participants will engage in activities with real-world examples and learn best practices in the areas of:

- Project Planning
- Cost-Benefit Analysis
- Budgeting
- Scope of Work Development
- Reporting

By the end of the session, attendees will understand how to align projects with local mitigation plans, avoid common application mistakes, and effectively manage awarded grants in compliance with FEMA and state requirements.

A laptop or tablet is required.
