

District Emergency Operations Plan (EOP) Self-Assessment Tool

This tool will generate information on how a district's emergency operations plan (district plan) addresses:

1. District-wide emergency planning activities;
2. District-wide emergencies; and
3. The development of individual school emergency operations plans (school plans).

This tool should be completed by the individual(s) most familiar with the district plan.

Definitions

Community Organizations: Those entities within the community that can support emergency management for schools (e.g., Red Cross, Boys & Girls Club, faith-based organizations).

Community Partners: Those with a responsibility in school emergency management, including local government, first responders (law enforcement officers, fire officials, and emergency medical services personnel), as well as public and mental health entities.

Functional Annexes: The section of an EOP that details the goals, objectives, and courses of action related to functions (e.g., evacuation, communications, recovery) that apply across multiple threats and/or hazards. These set forth how the district or school will manage a function before, during, and after an emergency.

Goals: Broad, general statements that indicate a desired outcome in response to the threat or hazard identified within an EOP.

Informal Agreements: Active working relationships between entities not bound by a MOU, MOA, state law, or other type of formal agreement.

Incident Command System (ICS): A standardized approach for incident management, regardless of cause, size, location, or complexity.

Mitigation: The capabilities necessary to eliminate or reduce the loss of life and property damage by lessening the impact of an event or emergency; and, reducing the likelihood that threats and hazards will happen.

Recovery: The capabilities necessary to assist schools within the district (and the district overall) affected by an event or emergency in restoring the learning environment.

For further information or clarification regarding any of the concepts and terminologies discussed within this form, please visit the Readiness and Emergency Management for Schools (REMS) Technical Assistance (TA) Center Website at <http://rems.ed.gov>.

Response: The capabilities necessary to stabilize an emergency once it has already happened or is certain to happen in an unpreventable way; establish a safe and secure environment; save lives and property; and facilitate the transition to recovery.

School: A school building or campus.

School District: A local education agency (LEA) or similar entity.

School Plan: A school building or campus EOP.

Threats and Hazards: Threats are human-caused emergencies such as crime and violence, while hazards include natural disasters, disease outbreaks, and accidents.

These set forth how the district or school will manage a threat or hazard before, during, and after an emergency.
